

I Do What I Want

The Real McKenzies

I'm a major minority, I can tell the government lies
Long as they don't compromise my infernal disguise
Cold water is all around, is this what it feels like to
drown
Ain't no body to pull me out, it feels like I'm going
down
White magic hypocrisy
Forced to follow the rules
And there ain't no places to fit us in
Cause it's been this way all along
I do what I want
Whenever I like
Because it's my right
I don't ever want to do what I told
I'm getting old
And this is how my life's been turning out
I do what I want
Whenever I like
Because it's my right
I don't ever want to do what I told
I'm getting old
And this is how my life's been turning out
I do what I want
Whenever I like
Because it's my right
I don't ever want to do what I told
I'm getting old
And this is how my life's been turning out
I do what I want
Whenever I like
Because it's my right
I don't ever want to do what I told
I'm getting old
And this is how my life's been turning out
For... me...
