

Trapped In

The Reason

Woah, woah, woah
Woah

This for all my niggas trapped in
Caught a case, it made me backspin
I been focused, bringin' racks in
This for all my niggas trapped in
This for all my niggas trapped in
Caught a case, it made me backspin
I been focused, bringin' racks in
This for all my niggas trapped in

Yeah, yeah
For my niggas on they own time, woah
I done ran up on a gold mine, woah
Little Henny made me road slide, woah
'Cause I used to carry .45, woah
I done seen a lot, done a lot, yeah
Dogs in to see the paws in 'em
Tryna make it out like a Saw victim
Bullets hit the whip and leave the car spinnin'
Niggas still pimp the butterfly
I done fluttered high and evolved in it
Niggas still don't wear shit
Got a issue but don't never call niggas
Seen a lotta niggas fall off
Cut my missile like a call off
REASON bussin', never start off
Tie 'em up and take 'em all off
Bigger picture, nigga, bigger picture
I been showin' ass like I'm skinny dippin'
Nigga flow tighter than a penny pincher
'Magine if I got the Henny with 'em
'Magine if a nigga sell drugs
Yeah, I sell drugs 'cause the flow crack
'Magine I could cure the whole world with the coke flow
'Cause it's dope raps
I done done a lot, seen a lot
Black skin, feelin' penalized
This what happens when I dream a lot
Nigga dreams

This for all my niggas trapped in
Caught a case, it made me backspin
I been focused, bringin' racks in
This for all my niggas trapped in

Oh, man
For my niggas on they on time, woah
Remember thuggin' in my profile, ayy
I rather make it with my own guys, woah
But I can't free 'em with a closed mind, I go my
I pray this shit that I just twisted could get me up out my shame
Slid up on my homie bitch, he ain't trip, 'cause it ain't his mane
Just sayin', uh
Lord, I know you see my pain

Help while I find my hopes
Love you for your sense of humor
Don't tell me that my life a joke
I done hung with lions and bought the tickets from niggas woofin'
I done seen the gun and just let him pull it and bit the bullet
I come from the ash of a fire past that my mom was put in
I created magic how I got past it without me lookin'
Braggin' ain't brackin', uh
Rappin' just rappin', you cappin', your shit elastic, uh
Stretchin' the truth 'till we factor in shit ain't happen
I got this feel you can't fathom
I seen some shit you can't tap in
'Cause this what happen when you--

Trapped in
Caught a case, it made me backspin
I been focused, bringin' racks in
This for all my niggas trapped in
This for all my niggas trapped in
Caught a case, it made me backspin
I been focused, bringin' racks in
This for all my niggas trapped in

Man
All things fall apart, everything goes South
Homie had the most heart, he a deadbeat now
Stuck in the mud, man, we need to put the Sizzurp down
Life ain't quite the picnic when the chips are down, look
Most of the niggas I pictured as winners just went away
I had to get up and make a way
I need the whole planet to know my name
Mama said, "Don't quit your day job"
I was a second from sellin' yay
I needed a deal, like playin' cards
Made a few records with Sounwave
Whoever swallowed the key to the cage that we stay in?
I'll make him regurgitate it
One time I heard I was underrated
I'd rather that than just gettin' rated
Ain't just under investigation
I done seen a lot, nigga, done a lot
In Carson, dodgin' the Sheriff's station
Went broke bailin' my brother out
Man, that's automatic
At the semi squeezin'
Or a fiend on Halloween
'Till it's a wrap like a Easter basket
My collard greens with plenty season
A solution and a reason, there you have it
