

# Where Do We Go From Here

**The Reason**

Yesterday we ran along  
A long, long way away from home  
We didn't look back, we left it all  
The only things we've ever known  
Well I wanna know  
Where do we go from here?

Along the way we came across  
The only friends we've ever known  
They gave us a hand. We trudged along  
The only road we've ever known  
We all wanna know  
Where do we go from here?

We lift up our heads and sing along  
The only song we've ever known  
I'm dying to know  
Where do we go from here?
