

# Control My Heart Blues

The Record Company

I've been holding on too long  
I've been holding on too long  
I've been holding on too long  
To old feelings, yeah  
And it's been burning me up inside  
It's been burning me up inside  
Having you so close  
Moving slow

When the nights are long  
The nights are free  
You sing a song  
You sing to me  
You lift me up  
You take me higher  
And when I was down you came to the fire

I can't control  
What my heart does  
My heart does  
I can't control  
What my heart does  
My heart does

Yeah, yeah

I want to dance with you, girl  
I want to dance with you, girl  
You're the kind of woman  
I've been waiting on my whole life  
Yes I have  
Well, and it's time that I let you know  
It's time that I let you know  
Keep it simple  
Dancing till the sun rises

When the nights are long  
The nights are free  
You sing that song  
You sing to me  
When you lift me up  
You take me higher  
And when I was down you came to the fire

I can't control  
What my heart does  
My heart does  
I can't control  
What my heart does  
My heart does

It feels good  
Oh, yeah  
I want to say it again  
I can't control  
What my heart does  
My heart does

I can't control  
What my heart does  
My heart does

When I'm with you baby  
It's alright  
When I'm with you  
It's alright
