

Get Up And Dance!

The Record Company

Please, please, get up and dance with me
Please, please, make me believe
Don't stop using, don't stop using
Don't stop using me, yeah
Please, please, get up and dance with me
Please, please, make me believe maybe
Don't stop using, don't stop using
Don't stop using me

I'm bad, I'm feeling bad
And you're so evil, I like that
Because, close to midnight you make me a fool
And past midnight you know that I need you
Bad, it's such a drag
That you're so special, got me in the palm of your hand
Now break me, how you gonna take me
What you gonna teach me? I don't know, I don't know, no

Please, please, get up and dance with me
Please, please, make me believe maybe
Don't stop using, don't stop using
Don't stop using me, yeah
Please, please, get up and dance with me
Please, please, make me believe maybe
Don't stop using, don't stop using
Don't stop using me

Fast, we're going fast
And you're so modern, I like that
Because, close to midnight you make me a fool
And past midnight you know that I need you
Crash, let's crash
Get reckless, dangerous, see how long it lasts
Now break me, how you gonna take me
What you gonna teach me, I don't know, I don't know, no

Please, please, get up and dance with me
Please, please, make me believe maybe
Don't stop using, don't stop using
Don't stop using me, yeah

Take a walk on me maybe
You got the energy, you got the energy
Take a walk on me maybe
Take a walk on me maybe
You got the energy, you got the energy
You've got the energy, yeah

Please, please, get up and dance with me
Please, please, make me believe maybe
Don't stop using, don't stop using
Don't stop using me, yeah
Please, please, get up and dance with me
Please, please, get up and dance with me
Don't stop using, don't stop using
Don't stop using me, yeah, yeah

Dance with me
Get up and dance with me, hey
Get up and dance with me, come on
Get up and dance, yeah, yeah
Uh-huh, uh-huh, alright
Woo
It's alright, it's alright
