

# I Found Heaven (In My Darkest Days)

The Record Company

I walk on down that old road  
Past the edge of town  
Was feeling a little bit lonesome  
Until I heard a distant sound

A whisper cross the river  
A bass rumbling with a broken string  
Something's bringing me closer now  
The spirits are pulling me in

A warm moonlight cuts across the sky  
A cool gray shack in front of my eyes  
A stone path by the chimney stack  
A door opens up and to my surprise

She set me up with some whisky  
Gave me just a little taste  
I put an old song on the jukebox, man  
I found heaven in my darkest days  
People here getting risky  
Ain't letting it go to waste  
I sing an old song on the jukebox, babe  
I found heaven in my darkest days  
I found heaven in my darkest days

Yeah, I had too many cloudy days  
I made too many mistakes  
I stumbled into my oasis  
Now my heart no longer aches

Pour me a tall one and I'll shake my hips  
Head to the piano if the record skips  
Sing it loud, one more time  
I woke up hurting now I'm feeling fine

She set me up with some whisky  
Gave me just a little taste  
I put an old song on the jukebox, man  
I found heaven in my darkest days

People here getting risky  
Ain't letting it go to waste  
I sing an old song on the jukebox, babe  
I found heaven in my darkest days  
I found heaven in my darkest days  
I found heaven in my darkest days

Oh in my darkest days, yeah

A little moonlight cut across the sky  
A cool gray shack in front of my eyes  
A worn out old path by the chimney stack  
A door opens up and to my surprise

She set me up with a whisky  
Gave me just a little taste  
I put an old song on the jukebox, man

I found heaven in my darkest days  
People here getting risky  
Ain't letting it go to waste  
I sing an old song on the jukebox, babe  
I found heaven in my  
Darkest days

I found heaven in my darkest days  
I found heaven in my darkest days

A little bit of heaven  
In my darkest days  
A little bit of heaven  
A little bit of heaven  
Oh yeah
