

Never Leave You

The Record Company

I know you're gonna be
So bad and good to me, alright
The waves are gonna break
They give and then they take me, that's right

This is, this is, this is automatic
Had a little bit, now I've gotta have it
I know, I know, I can never leave you
I can never leave you, I can never leave

I'll keep searching for answers
Find a place in the sun
Forget the things that I've done
I'll keep searching forever
Find a place I can run
California Sun

Keep me in the back
Like a stolen Cadillac, alright
There's nothing I can do
But ride along with you at night

This is, this is, this is automatic
Had a little bit, now I gotta have it
I know, I know, I can never leave you
I can never leave you, I can never leave

I'll keep searching for answers
Find a place in the sun
Forget the things that I've done
I'll keep searching forever
Find a place I can run
California Sun

Ooh, I can never leave you, I can never leave you
Ooh, I can never leave you, I can never leave you
Ooh, I can never leave you, I can never leave you
Ooh, I can never ever leave you, yeah

I'll keep searching for answers
Find a place in the sun
Forget the things that I've done
I'll keep searching forever
Find a place I can run
California Sun

I can never leave you
I can never leave you
I can never leave you
I can never leave

I'll keep searching for answers
Find a place in the sun
Forget the things that I've done
I'll keep searching forever
Find a place I can run
California Sun
