

Wasting Time

The Red Clay Strays

Another year 'round the sun and nothing's been done
I gotta get out of this state I'm in
My wheels have been spinnin', but I ain't been movin'
Gotta get back on track again
I've been stuck in a rut, just a-kickin' up mud
And I'm sick of waitin' 'round for the change
I got my foot on the gas, gonna make things happen
And do 'em all my own way

Can't waste
Won't waste
Ain't wastin' time no more
I can't wait
Won't waste
Ain't wastin' time no more

Well, livin' the dream ain't what it seems
I know this to be true
These fair weather friends only grab your attention
When they want somethin' from you
You'll quickly see the difference between
Who's really on your side
And who wants a dime of your every dollar
Just to hang you out to dry

Can't waste
Won't waste
Ain't wastin' time no more
I can't wait
Won't waste
Ain't wastin' time no more

Well, if ya want somethin' done and you want it done right
You gotta go do it on your own
I'm done wastin' time with these suits and ties
Tryin' to take a piece of my soul
They wanna tell me how to look and rip it straight from the book
Of how to formulate a star
Provin' a point over and over
They don't care who you are

Can't waste
Won't waste
Ain't wastin' time no more
I can't wait
Won't waste
Ain't wastin' time no more
