

Learning To Live

The Red Jumpsuit Apparatus

I've come so far but there was a lot of work still left
Everytime I think I am done things start to shift
But when I wake up next to you then I feel loved
I'm telling you boys there is power in your touch

Oh it's true
All that you do
Greatly affects me, greatly affects me too
All that you do
Greatly affects me, greatly affects me

There will never be another girl that ever compare to you
Because you have it from the start and then you gave me all your heart
And I know sometimes that I can act a fool
It doesn't mean that I care any less for you

Oh it's true
All that you do
Greatly affects me, greatly affects me too
All that you do
Greatly affects me, greatly affects me

I didn't want you to see you're on my [?]
Because I was afraid that this could follow [?]
I swear that I'll be the one to guard your heart
Yeah and I hold on for this forever

Do you see what you do
Greatly affects me, greatly affects me
Do you see what you do
Greatly affects me, greatly affects me

Do you see what you do
Greatly affects me, greatly affects me
Do you see what you do
Greatly affects me, greatly affects me
