

X's For Eyes

The Red Jumpsuit Apparatus

Hidden in the rearview, I see you
Everything you did, I did that too
Nothing you could say would change that
Nothing you could do would break that now
You've been on your own so long
Can you tell me if it's worth what you've been through?
Nothing you could say would change that
Nothing you could do would break that now

I know that one day you will see we all love you

Do you want to be right, or do you want to be happy?
'Cause I'm scared you're gonna die
Take control of your life
And wake up from all the bad dreams
You could end it all tonight
Everyone knows where this body lies
X's for eyes

Look into my eyes if you want to
Everything you see there will be true
Nothing you could say would change that
Nothing you have done will break that now

I know that one day you will see we all love you

Do you want to be right or do you want to be happy?
'Cause I'm scared you're gonna die
Take control of your life
And wake up from all the bad dreams
You could end it all tonight
Everyone knows where this body lies
X's for eyes

Do you want to be right, or do you want to be happy?
'Cause I'm scared you're gonna die
Take control of your life
Wake up from this bad dream
You could end it all tonight
Everyone knows where this body lies
X's for eyes
Everyone knows where this body lies
X's for eyes
