

# Awakening

## The Red Shore

Destiny writes itself  
Time destroys everything  
Existence points in one direction  
Death is unavoidable  
Modern life is war  
The direction has been chosen  
This was an awakening  
This is your defeat  
Existence stands still  
Time elapses to the infinite  
From birth to death  
There is no concern for individual survival  
One cannot protect one  
And to exist is to shatter  
Desperation is weakness  
Desperation is weakness  
This was an awakening  
This is your defeat  
Existence stands still  
Time elapses to the infinite  
Consume nihil  
Existence fades away  
Redemption exhales across the land  
In the darkest hour of humankind  
It is only now that you have accepted your undoing  
This was an awakening  
This is your defeat  
Existence stands still  
Time elapses to the infinite  
Existence is nothing  
Awakening
