

## How It Should Be

### The Regrettes

Lots and lots of girls, they walk around this world  
They're lookin' for a boy, that'll help them find joy  
Lots and lots of girls, they feel so worthless  
They depend on him, to make them feel again  
I don't want you 'cause I don't need you  
And I felt today what it's like when you're away  
I wanna tell you, I still don't miss you  
So just get outta my way and take another sick day

Time to say goodbye 'cause you and I aren't meant to be  
I feel free, I feel like me  
That's how it should be

I don't like sports, I don't like board shorts  
All the things that I said were just to get inside your head  
I'm so sorry that I wasn't your perfect girl  
Didn't meet your expectations, that you weren't my whole world

Time to say goodbye 'cause you and I aren't meant to be  
I feel free, I feel like me  
That's how it should be
