

Show Me You Want Me

The Regrettes

I shut doors, but what for?
One too many nights wishin' I was somethin' more
Fight to be liked, don't have a type
I was kissing girls before I ever kissed a guy

I was terrified that day when I met you
And if ya take away the stage am I something you can see through?
h?

But all we got is time, take a piece of mine
You're everything I want, if you want it feel me right
You could break my heart, but that makes us alive
I know what I got and I think you'll wanna try

So come here and show me all the ways you want me
I'm tired of waiting, anticipating, yeah, baby, come here and
Show me all the ways you want me
Show me you want me

A rough heart needs a home
I wish I would I would believe you when you say I'm not alone
'Cause words cut but not enough
You're too good to be true screamin' on the telephone
How it all changed that day when I met you
But if ya take away the stage am I something you can see through?
h?

All we got is time, take a piece of mine
You're everything I want, if you want it feel me right
You could break my heart, but that makes us alive
I know what I got and I think you'll wanna try

So come here and show me all the ways you want me
I'm tired of waiting, anticipating, yeah, baby, come here and
Show me all the ways you want me
Show me you want me

All we got is time, take a piece of mine
You're everything I want, if you want it feel me right
You could break my heart, but that makes us alive
I know what I got and I think you'll wanna try

So come here and show me all the ways you want me
I'm tired of waiting, anticipating, yeah, baby, come here and
Show me all the ways you want me
Show me you want me
