

Got Me Missing

The Reklaws

I wonder if them ol' back roads
The ones I put them memories on
Remember me, in this F150
I wonder if that hometown heart
The one I didn't mean to tear apart
Still thinks of me, I know that's crazy
Maybe it's just something about
Radio up and the windows down

Got me missing all that wayback
Summer was a soundtrack
Heaven was a sundown Friday night
Got me missing all them way-out
Stars that used to stay out
Sippin' on some homemade wasted time
That population sign
My old spot in the drive
That empty chair sittin' there in momma's kitchen
Got me missing

Does that water tower still know my name
Even with that coat a paint
The county put on it
That town we used to own it
Freedom was fast cars
And hearts beatin' faster
Time moved as slow as a tractor

Got me missing all that wayback
Summer was a soundtrack
Heaven was a sundown Friday night
Got me missing all them way-out
Stars that used to stay out
Sippin' on some homemade wasted time
That population sign
My old spot in the drive
That empty chair sittin' there in momma's kitchen
Got me missing (All that wayback)
Got me missing (Summer was a soundtrack)
Got me missing (A sundown Friday night)
Got me missing

Maybe it's just something about
Radio up and the windows down

Got me missing all that wayback
Summer was a soundtrack
Heaven was a sundown Friday night
Got me missing all them way-out
Stars that used stay out
Sippin' on some homemade wasted time
That population sign
My old spot in the drive
That empty chair sittin' there in momma's kitchen
Got me missing (All that wayback)
Got me missing (Summer was a soundtrack)
Got me missing (A sundown Friday night)
