

# I Do Too

The Reklaws

Mistakes we're gonna make 'em  
Chances gonna take 'em  
Walls try and break 'em down  
Time we're gonna steal it  
Love like a drug gonna deal it  
That high I wanna feel it, now

I've been talking to the stars  
Been reaching through the dark  
Been holding out my heart

Do you ever lay awake at night, staring up at a lonely sky  
Wondering if it's gonna drop on you, like a rock on you  
Yeah, I do too  
Do you ever wanna run away, get scared you'll lose your faith  
Like it's all gonna stop on you, walk out on you  
Yeah, I do too  
We all got more questions than answers, dreams too big too lose  
Sometimes you worry too much  
Yeah, I do too

Everybody's got beautiful, we all got scars  
Why hide behind a filter, you're a perfect work of art  
What on earth are we here for  
What happens next  
For all the things I think I know  
There's so much I don't get

Do you ever lay awake at night, staring up at a lonely sky  
Wondering if it's gonna drop on you, like a rock on you  
Yeah, I do too  
Do you ever wanna run away, get scared you'll lose your faith  
Like it's all gonna stop on you, walk out on you  
Yeah, I do too  
We all got more questions than answers, dreams too big too lose  
Sometimes you worry too much  
Yeah, I do too

I've been up all night just steady shouting at the ceiling  
Staring down my demons, need something to believe in  
I've been up all night just steady shouting at the ceiling  
Staring down my demons, need something to believe in  
Something to believe in

Do you ever lay awake at night, staring up at a lonely sky  
Wondering if it's gonna drop on you, like a rock on you  
Yeah, I do too  
Do you ever wanna run away, get scared you'll lose your faith  
Like it's all gonna stop on you, walk out on you  
Yeah, I do too  
We all got more questions than answers, dreams too big too lose  
Sometimes you worry too much  
Yeah, I do too

Yeah, I do too
