

Stardust

The Reklaws

If I could lasso the moon
Hop on hitch a ride
Then I'd be there soon
Travellin' at the speed of light
Cause I don't know where you go
When you run outta time
But Ill bet know there's a country road
Way up there in the sky

Oh hayfields and halos
Cowboys and angels
Me and you

If I could drive this truck
Straight up
In a Space suit with a Stetson
On the Highway straight to Heaven
Talk about wide open spaces
I'd go all the way
Open up them pearly gates
Don't know when I'll see you again
But until then
I know you're kickin' up Stardust

Down here on earth
Still doin' my time
Sure it still hurts
Without you
Sittin' shotgun side

Oh churches and stables
Cowboys and Angels
Me and you

If I could drive this truck straight up
In a spacesuit with a Stetson
On the Highway straight to Heaven
Talk about wide open spaces
I'd go all the way
Open up them pearly gates
Don't know when I'll see you again
But until then
I know you're kickin' up Stardust
Just like you promised
The Heart grows the fondest when it's farther away
I know you're Kickin' up stardust
Way out beyond us
The Heart grows the fondest when it's farther away
I know you're kickin' up stardust

If I could drive this truck
Straight up
In Space suit with a Stetson
On the Highway straight to Heaven
Take about wide open spaces
I'd go all the way
Open up them pearly gates

Don't know when I'll see you again
But until then
I know you're kickin' up Stardust
Just like you promised
The Heart grows the fondest when it's farther away
I know you're kickin' up stardust
Way out beyond us
The Heart grows the fondest when it's farther away
I know you're kickin' up stardust
