

## Down In Flames

### The Relapse Symphony

The way that I live can be explosive  
Every second closer to the edge  
Die young ya live fast  
I'm like a car crash you can't ignore  
I'm medicated, mostly hated  
A bastard with a razor tongue  
Oh well, I'll cheers to those  
Who live like they're bones exposed

Let's go down in flames  
I'm fallen in and out of sanity  
I'm not okay  
Give me something strong to kill this pain  
(Whoa...) The deadly life styles got me hostile  
Down in flames  
I'm fallen in and out of sanity

I'm whiskey stained and low class, fill another tall glass  
Never gave a damn about impressing you  
Play it nice, bar fights, I know first hand  
While laughing at counterfeit Rock 'n' Roll bands  
I sit back and watch as they tremble  
It must be hard to live in that disguise  
I'm the true thing that you resemble  
So keep tryin', so forcified

Down in flames  
I'm fallen in and out of sanity  
I'm not okay  
Give me something strong to kill this pain  
(Whoa...) The deadly life styles got me hostile  
Down in flames  
I'm fallin' in and out of sanity

The time has come and now I see  
You wear a mask of who you want to be, no! No!  
I'm not fooled anymore  
It l'll come when they all see  
You avoid originality, yeah

Let's go down in flames  
I'm fallen in and out of sanity  
I'm not okay  
Give me something strong to kill this pain  
(Whoa...) The deadly life styles got me hostile  
Down in flames  
I'm fallen in and out of sanity
