

# **Forgotten**

**The Relapse Symphony**

My heart's grown cold  
From restless nights I layed awake  
A perfect life I have to fake  
Every day's the same  
Forced to hang my head in shame  
My saving grace this melody  
The only thing that sets me free

This is a song for the forgotten (Woah)  
We're here to make our voices known  
To take away the pain of darker days (woah)  
We're standing right here by your side  
You'll never be alone

These emotions running through my veins  
I'm not okay  
You can't break me down, it ends today  
Not bound by fear through the dark it's clear  
These words sincere that I hold dear  
The only thing that sets me free

This is a song for the forgotten (woah)  
We're here to make our voices know  
To take away the pain of darker days (Woah)  
We're standing right here by your side  
You'll never be alone

This is a song for the forgotten  
We're here to make our voices known  
To take away the pain of these dark days  
And you'll never be alone  
And you'll never be alone  
And you'll never be alone  
We'll take away the pain of these dark days  
And you'll never be alone
