

# Dead Inside

## The Restarts

As the Stock Markets open - as the City wakes up  
See the masses clock in to whore another day at their dead end  
job  
They got their mortgage sorted - Seem to have made it in life  
See their faces featured in the weekly special of the Financial  
Times

dead inside, dead inside  
just a useless product with an ignorant mind  
dead inside, dead inside  
kissed your life goodbye career suicide

It ain't that plain and simple - ain't just an easy ride  
Cos when you look at the small print their so called success ha  
s got an uglier side  
How come there's global starvation - how come there's wars to f  
ight  
It's that same system you work for of greedy corporate genocide
