

# Bulletproof

## The Revivalists

Patience is still bitter in your mouth  
The sweet taste was stolen  
That's the story of the south  
Part of me was home and the other half was gone  
And I can't feel the pain when I'm lying all along

Cuz I was breaking down and she was snorting cocaine in my bed  
I was making money  
Somehow I know it's gonna be all alright  
Something came to me in the wind last night  
And now it's coming down  
Oh it's all coming out  
And I can't stop it now no

Get out your bulletproof vest  
They can send them shots to your chest  
We're gonna make it now  
We're gonna make it out  
Get out your bulletproof vest  
They can send them shots to your chest  
We're gonna make it now  
We're gonna make it

So take it in tonight  
Girl your head ain't right  
We could have a date  
So we could share this life  
There's something that I know  
In the wind as it blows  
It's better to believe  
Than to lie to everyone you know

I'm breaking down and she was snorting cocaine in my bed  
I was making money  
Somehow I know its gonna be all alright  
Something came to me in the wind last night  
I got a heart,  
You got a heart  
Well that don't tell me just who you are  
I got to know  
I got to know  
I got to know  
I got to know  
We got to go

Get out your bulletproof vest  
They can send them shots to your chest  
We're gonna make it now  
We're gonna make it out  
Get out your bulletproof vest  
They can send them shots to your chest  
We're gonna make it now  
We're gonna make it out

Ooooooh's

Patience is still bitter in your mouth

The sweet taste was stolen  
That's the story of the south  
Part of me was home  
The other half was gone  
And I can't feel the pain when I'm lying all alone

Cuz I was breaking down and she was snorting cocaine in my bed  
I was making money  
Somehow I know its gonna be all alright  
Something came to me in the wind last night

Get out your bulletproof vest  
They can send them shots to your chest  
We're gonna make it now  
We're gonna make it out  
Get out your bulletproof vest  
They can send them shots to your chest  
We're gonna make it now  
We're gonna make it
