

15 Minutes In The Algorithm

The Reytons

Let's all be famous, let's run our mouth to the camera
And do what we can until everything changes
We don't need talent or passion for cash and the pay

'Cause I don't wanna listen to a word that they say
Scrolling over videos for six hours a day
I don't wanna listen to a word that you say
While you're chasing attention, intentions are tamed

Ring a ring o' roses, watch them all rise up 'til they all fall down
Tell me when it's over, we'll come bounding out from the underg round
It's better not to play your part, and lose it all before you start
Shattered dreams and broken hearts for those 15 minutes in the algorithm

Let's all be shameless, let's do it all on the internet
They won't forget us, we'll never be nameless
We'll be remembered forever in every way

'Cause I don't wanna listen to a word that they say
Scrolling over videos for six hours a day
I don't wanna listen to a word that you say
'Cause the acting's distracting and blatantly fake

Ring a ring o' roses, watch them all rise up 'til they all fall down
Tell me when it's over, we'll come bounding out from the underg round
It's better not to play your part, and lose it all before you start
Shattered dreams and broken hearts for those 15 minutes in the algorithm

Let's all be brainless, let's all just follow the pattern
And let it all happen 'til everything's painless
We don't need voices or choices, so take them away

'Cause I don't wanna listen to a word that they say
Scrolling over videos for six hours a day
I don't wanna listen to a word that they say
Take your products and bollocks and get out my face

Ring a ring o' roses, watch them all rise up 'til they all fall down
Tell me when it's over, we'll come bounding out from the underg

round

It's better not to play your part, and lose it all before you start

Shattered dreams and broken hearts for those 15 minutes in the algorithm
