The Reytons

Let's take it back in time  
Skip back, to the four, to the five  
I'm talking that Leadmill vibe  
That Boardwalk thing, that West Street life  
Good times but I never got closure  
Woke up and I felt so sober  
Rocked up and I knocked on the door  
Said "Boothy's gone and the party's over"

Take me back, take me back  
To when the music was a little bit better  
Take me back, take me back  
'Cause we'll be doing it forever

Let's talk that toilet circuit  
Back then it was oh so worth it  
Some bloke's in the bogs trying to do some lines  
And I'm trying to learn some verses  
Spotlight's on, don't get nervous  
Don't breathe that dust on the curtain  
Two pound every six pound ticket  
And you get four pints, that's one per person

It'll be packed for certain  
Nine came but six didn't turn up  
It don't matter cause Paul still came  
At the after party, gonna chat them birds up  
And we won't get nowhere  
But we don't give a shit  
'Cause we're fucking wasted

I miss them MySpace days  
Featured tracks, unlimited plays  
Where's all those LimeWire files?  
The artists too, cause they never got paid  
Download and I'll Bluetooth that  
You never know what'll be your last  
Shoutout to the MSN girls  
Said BRB but I never went back

Let me burn a CD for the car  
Five pound petrol, never get far  
Won't even start, bump it and then we go  
Someone called Chris get a code for the stereo  
And we won't get nowhere  
And we don't give a shit  
'Cause there's no real problems
