

Antibiotics

The Reytons

Antibiotics
Nights of erotics
Cheap shots and a little narcotics
You won't get no sleep tonight
But he's all right while the world keeps turning
Bad habits
Bad relationship
They're like rabbits with no faithfulness
And he's liable to make mistakes
If he's out with his mates and it's there on a plate then

He'll take everything that he can
Cause she's a foolish girl and he's a red blooded man
She's got thousands of reasons
But she'll never leave him
He's got everything she needs but it's not the plan

Antibiotics
Nights of erotics
Cheap thrills from a little robotics
She might take his word tonight
But that's despite all the lies he's churning
Good lover
Bad relationship with no rubber
But no place for it
Cause he's liable to make mistakes
If he's out with his mates and he's there on a plate then

He'll take everything that he can
Cause she's a foolish girl and he's a red blooded man
She's got thousands of reasons
But she'll never leave him
He's got everything she needs but it's not the plan

She wasn't looking for love
He wasn't searching for anything serious
Neither received the above
Stuck in the system of feeling delirious
Antibiotics
Nights of erotics
Cheap shots and a little narcotics

He'll take everything that he can
Cause she's a foolish girl and he's a red blooded man
She's got thousands of reasons
But she'll never leave him
He's got everything she needs but it's not the plan
