

Car Crash

The Reytons

We ran the light for the last time
There's no turning back, it's a landslide
We've fueled up a million times
With the will to survive
But the passion to drive
And I can't seem to find the breaks
I really need to slow things down again
I know there's gonna be some trouble up ahead
But I know being with you
It's not the easiest ride
We're holding on for our lives again

So fasten your seat belts or open the door
Dive out the window or hold on for more
Fasten your seat belts or open the door
There's no turning back
If you know then you're sure

'Cause it's a car crash waiting to happen
Foot to the throttle and no overlapping
It's a car crash waiting to bust
Ashes to ashes and left in the dust

We ran the light for the last time
It's best to pull up at the roadside
You broke down again for the night
Every time that we tried it
Disaster in sight
And I can't seem to pull you 'round
I really need to fire things up again
You know there's gonna be no turning back
That's why you told me, "Living with you
It's not the easiest ride
We're holding on for our lives again"

So fasten your seat belts or open the door
Dive out the window or hold on for more
Fasten your seat belts or open the door
There's no turning back
If you know then you're sure

'Cause it's a car crash waiting to happen
Foot to the throttle and no overlapping
It's a car crash waiting to bust
Ashes to ashes and left in the dust

So fasten your seat belts or open the door
Dive out the window or hold on for more
Fasten your seat belts or open the door
There's no turning back
If you know then you're sure

'Cause it's a car crash
(Waiting to happen)
(It's a car crash)

'Cause it's a car crash waiting to happen

Foot to the throttle and no overlapping
It's a car crash waiting to bust
Ashes to ashes and left in the dust
