

Pins & Needles

The Reytons

So as I staggered down to brown street, almost half four in the morning
Trying to flag a taxi down, either full or just ignoring
I met this guy, black coat and tie, he said "where you off to fella?"
You wanna get yoursen' in here tonight but it'd be no change from a tenner

So I walked into the room and couldn't believe what I saw
Yeah she had me at the first glance
I was trying to be smooth and headed off to the bar
Until she asked me if I'd like a dance

And I can't believe it
Cause I was heading home alone and now she's got me changing all my plans
And I won't believe it
Cause I know this girls a worldie but she's got me sitting on my hands

It's like her beauty's got me overlooking all these stupid prices
With two trips to the cash machine I'm captured by the irish
Cause she don't talk to no one else it must be love I'm certain
But she grabbed me by the hand and pulled me closer to the curtain

So I stepped into the room and couldn't believe what I saw
Yeah she had me at the first glance
Then I tried to be smooth and placed my drink on the floor
And then she asked me for another dance

And I can't believe it
Cause I was heading home alone and now she's got me changing all my plans
And I won't believe it
Cause I know this girls a worldie but she keeps me sitting on my hands

Yeah the songs always feel so quick when I'm with you
Can't escape these thoughts all in my mind
Yeah the songs always seem so quick when I'm with you
I can't believe the luck I've had tonight

And I can't believe it
Cause I was heading home alone and now she's got me changing all my plans
And I won't believe it
Cause I know this girls a worldie but she keeps me sitting on my hands

Ohh woahhh
Got me sitting on my hands
Ohh woahhh
Yeah she keeps me sitting on my hands

Yeah the songs always feel so quick when I'm with you
She keeps me sitting on my hands
Yeah the songs always feel so quick when I'm with you
Yeah she keeps me sitting on my
