

Garden

The Ridleys

I miss being alone with you
And staring at the stars on a cold night
Looking for the brightest ones as the sun comes up now
I miss singing along with you
Oh every song we sing just feels right
Looking for the right words is so easy when you're around

So do you miss me, too?
I hope you miss me, too

When the sun sets I will be out in the garden
Will you meet me there and we'll dance and we'll dance
Take me back to the time when we started
Take me back to the last, to the last
Oh when the sun sets I will be out in the garden
Will you meet me there and we'll dance and we'll dance
Take me back to the time when we started
Take me back to the last, to the last

I miss being at the top of the mountain screaming your name
Every time I'm on stage I think of doing the same
I don't ever wanna change, I don't ever wanna change now
'Cause if I ever forget who I am I know you're there to remind me
All this is nothing if it's not about you
(All this is nothing now
All this is nothing now
All this is nothing if it's not about you)

So do you miss me, too?
I hope you miss me, too

When the sun sets I will be out in the garden
Will you meet me there and we'll dance and we'll dance
Take me back to the time when we started
Take me back to the last, to the last
Oh when the sun sets I will be out in the garden
Will you meet me there and we'll dance and we'll dance
Take me back to the time when we started
Take me back to the last, to the last

All this is nothing now
All this is nothing now
All this is nothing if it's not about you

All this is nothing now
All this is nothing now
All this is nothing if it's not about you

All this is nothing now
All this is nothing now
All this is nothing if it's not about you

All this is nothing now
All this is nothing now
All this is nothing if it's not about you

When the sun sets I will be out in the garden

Will you meet me there and we'll dance and we'll dance
Take me back to the time when we started
Take me back to the last, to the last

Oh when the sun sets I will be out in the garden
(All this is nothing now, all this is nothing now)
Will you meet me there and we'll dance and we'll dance
(All this is nothing if it's not about you)
Take me back to the time when we started
(All this is nothing now, all this is nothing now)
Take me back to the last, to the last

(All this is nothing if it's not about you)
Oh when the sun sets I will be out in the garden
(All this is nothing now, all this is nothing now)
Will you meet me there and we'll dance and we'll dance
(All this is nothing if it's not about you)
Take me back to the time when we started
(All this is nothing now, all this is nothing now)
Take me back to the last, to the last

(All this is nothing if it's not about you)
Oh when the sun sets I will be out in the garden
(All this is nothing now, all this is nothing now)
Will you meet me there and we'll dance and we'll dance
(All this is nothing if it's not about you)
Take me back to the time when we started
(All this is nothing now, all this is nothing now)
Take me back to the last, to the last

(All this is nothing if it's not about you)
