

Angel's Thunder, Devil's Reign

The Riot

Lady Luck has shined her light
No you won't be home tonight
City streets are calling my name
Hit the gas and burn the road
Pistons pumpin' overload
All or nothing always my game

Live fast
Die young
Make it last
The night has just begun

Angel's thunder, Devil's reign
Heavy metal runs through my veins

Blackened steel and gasoline
Living out my rebel dream
The night ain't over 'til I say so
Lady Leather's by my side
Hang on tight, it's time to ride
Love ain't over 'til I say so

Live fast
Die young
Make it last
The night has just begun

Angel's thunder, Devil's reign
Heavy metal runs through my veins
Angel, guide me through the night
El Diablo, carry me through the fight

Live fast
Die young
Make it last
The night has just begun

Angel's thunder, Devil's reign
Heavy metal runs through my veins
Angel, guide me through the night
El Diablo, carry me through the fight
Angel, guide me through the night
El Diablo, carry me through the fight
