

## Cover Me

The Riot

Remember, days of the past I see them still  
Forever, baby, lost inside my tortured will  
This was all I ever wanted to feel  
This was all I ever wanted  
Baby don't you know  
In my eyes I see such misery  
It hurts me when you go  
Yea how I need to feel you close to me  
This was all I ever needed to feel  
This was all I ever wanted

Cover me, cover me  
Into the night don't you see I'm all alone  
Don't you leave me here alone throughout the night  
Cover me, cover me  
Into the night, don't you see that I'm alone  
Would you leave me here alone throughout the night

You were all I ever wanted to feel darlin  
You were all I ever wanted

Cover me, cover me  
Into the night don't you see I'm all alone  
Don't you leave me here alone throughout the night  
Cover me, cover me  
Into the night, don't you see that I'm alone  
Would you leave me here alone throughout the night
