

# I'm On The Run

The Riot

You know me you see  
In your dreams so distantly  
Remember what I said  
I'll never let you go  
Hold secrets deep and dark  
My visions light the spark  
Surrender all your fear  
And take me by the hand  
I've come a thousand miles  
To watch you in the night  
Now I won't let you go  
I've got you in my sight  
You feel me, you can tell  
I've got you in my spell  
Tonight I'll make you mine  
I'll never let you go  
I touch you with my eyes  
You run but can not hide  
I'll hold you in my hands  
Then run into the night  
So many times before  
I've let you slip away  
The time has come for more  
This time I make you stay  
Run  
I'm on the run  
Run  
I'm on the run  
So many times before  
I've let you slip away  
The time has come for more  
This time I make you stay  
Run  
I'm on the run  
Run  
I'm on the run
