

# Immortal

The Riot

Just a young man with hopes and dreams  
Full of passion  
Willing to share your gifts with the world  
Outside

Your time on this earth was so very brief  
But your star burned so bright  
You encouraged us to shine  
Shine on

In simple ways you did inspire  
So many people  
Forming a clan spread around the world  
Your tribe

Your time on this earth was so very brief  
But your star burned so bright  
You encouraged us to shine

Shine on through the darkest night  
Your music is eternal  
Through your soul has touched the sky  
Through your songs you are immortal  
You are immortal

Did we make your dreams come true  
With our passion?  
Rest in peace assured we still hold  
Your light

Your time on this earth was so very brief  
But your star burned so bright  
You encouraged us to shine

Shine on through the darkest night  
Your music is eternal  
Through your soul has touched the sky  
Through your songs you are immortal  
You are immortal  
You are immortal
