

# Lean into It

Riot V

You say life is hard  
And you want to run away from it all  
Stuck in that same old place  
With your back against the wall  
Now once again  
You find new roadblocks in your way  
Always hoping the easy path  
Will come along some day

But there's a strength inside  
That no one really sees  
Don't let the daily grind  
Bring you to your knees

You've gotta lean into it  
When it feels like more  
More than you can take

Plus with all your might  
Until you have reached the top of the mound  
All it takes is one slip  
And you're crashing to the ground  
So frustrated  
It's like the walls are closing in  
Judging eyes of onlookers  
Getting under your skin

But there's a strength inside  
That no one really sees  
Don't let the daily grind  
Bring you to your knees

You've gotta lean into it  
When it feels like more  
More than you can take  
You've gotta lean into it  
Your back might bend  
But you will never break

You've gotta lean into it  
When it feels like more  
More than you can take  
You've gotta lean into it  
Your back might bend  
But you will never... break

You've gotta lean into it  
When it feels like more  
Lean into it  
When it feels like more than you can take

You've gotta lean into it  
Your back might bend  
But you will never ever ever break

You've gotta lean into it  
Lean into it

You will never ever break
