

# Messiah

## The Riot

Birthed when lightning struck the sky  
Offspring of a sacred line  
His arrival marks the battle  
Soldiers by his side

Earthly kings hide in fear  
They know the end is near

Messiah, messiah  
Save us from the flames

His coming was long foretold  
In the ancient texts of old  
He will free us from the darkness  
Bring us into light

No more sorrow or pain  
He's come to break the chains

Messiah, messiah  
Save us from the flames

No more sorrow or pain  
He's come to break the chains

Messiah, messiah  
Save us from the scorching flames
