

# Return of the Outlaw

## The Riot

Sundown at th edge of town  
A dark figure approaches  
He needs no introduction  
Everyone knows who he is

They say he shot a man dead in San Antone  
And two more in Memphis  
Deeds are the measure of a man  
So don't take your chances

When Six Gun Sal rides into town  
Nobody wants to be around  
Shut your mouth, forget what you saw  
It's Six Gun Sal, return of the outlaw  
Return of the outlaw  
Return of the outlaw

Weathered skin and a heart of stone  
A lonely desperado  
Cold black eyes with deeds to match  
His grit is not bravado

When Six Gun Sal rides into town  
Nobody wants to be around  
Shut your mouth, forget what you saw  
It's Six Gun Sal

Rumor travels faster than sound  
Cross him boy and you'll be in the ground  
His fuse is short and he's quick on the draw  
Six Gun Sal, return of the outlaw  
Return of the outlaw  
Return of the outlaw

When Six Gun Sal rides into town  
Nobody wants to be around  
Shut your mouth, forget what you saw  
It's Six Gun Sal

Rumor travels faster than sound  
Cross him boy and you'll be in the ground  
His fuse is short and he's quick on the draw  
Six Gun Sal, return of the outlaw  
Return of the outlaw  
Return of the outlaw

9. Immortal 04:22 Hide lyrics  
Just a young man with hopes and dreams  
Full of passion  
Willing to share your gifts with the world  
Outside

Your time on this earth was so very brief  
But your star burned so bright  
You encouraged us to shine  
Shine on

In simple ways you did inspire

So many people  
Forming a clan spread around the world  
Your tribe

Your time on this earth was so very brief  
But your star burned so bright  
You encouraged us to shine

Shine on through the darkest night  
Your music is eternal  
Through your soul has touched the sky  
Through your songs you are immortal  
You are immortal

Did we make your dreams come true  
With our passion?  
Rest in peace assured we still hold  
Your light

Your time on this earth was so very brief  
But your star burned so bright  
You encouraged us to shine

Shine on through the darkest night  
Your music is eternal  
Through your soul has touched the sky  
Through your songs you are immortal  
You are immortal  
You are immortal
