

To My Head

The Riot

It's not my life
You set upon me all over
I know
It ain't right
I've severed all connections that would grow
And in my life I've been around to know
Deep inside it's your eyes that show
It goes right back to my head
I feel you watching me, yeah, ooh
I can't run
A better man would suffer surely too
Cause you're not done
Your life is like a bullet from a gun
I turn around and I know your name
Never found but I feel your stare
It goes right back to my head
I feel you now I know
It goes right back to my head
Oh I'm feeling what you do
It goes right back to my head
Oh there's someone watching me
In my life I've been around to know
Deep inside it's your eyes that show
It goes right back to my head
I feel, I feel you watching me
It goes right back to my head
I can't run
I can't run
It goes right back to my head
I feel you watching me
It goes right back to my head
I can't run
I can't run
It goes right back to my head
You're coming you're coming after me
It goes right back to my head
This ain't right no more, this ain't right
It goes right back to my head
Oh I know, I know, I know, I know
It goes right back to my head
I can't run
I can't run, no turning back
It goes right back to my head yeah
