

Vigilante Killer

The Riot

Oh walking through the streets taking life in your hands the boy's
on the corner's sixteen but a man
He may ask for money with a flick knife make a stand he doesn't
even know he walked right into your hands
He knows he's doing wrong but he's sure he's doing right the punks
would stop their killing if someone put up a fight
New York Central Park ain't no place to cruise at night he's looking
for blood bet there's more spilled tonight
Vigilante killer he's a vengeance morbid man vigilante killer but
they don't understand
The tv says he's killing but they love him just the same the crime
rates gone down and we don't even know your name
Get you outta town you hurt with all the pain we'll make your name
immortal 'cause you made our streets the same
You were a victim of crime now a victim of the law guardian angels
even joined for the cause
Get you outta town you hurt with all the pain we'll make your name
immortal you made our streets the same
Vigilante killer he's a vengeance morbid man vigilante killer but
they don't understand
Vigilante killer he's a vengeance morbid man vigilante killer but
they don't understand
Walking through the streets taking life in your hands the boy's
on the corner's sixteen but a man
He may ask for money with a flick knife make a stand he doesn't
even know he walked right into your hands
He knows he's doing wrong but he's sure he's doing right the punks
would stop their killing if someone put up a fight
New York Central Park ain't no place to cruise at night he's looking
for blood bet there's more spilled tonight
Vigilante killer he's a vengeance morbid man vigilante killer but
they don't understand
Vigilante killer he's a vengeance morbid man vigilante killer but
they don't understand aah
