

You're All I Need Tonight

The Riot

Somewhere she's waving at me
At the corner of the bar
But I find the distance too far
To have me get up and see
Could it be due to my smile
Maybe I'll just hang out awhile

You're all I need tonight
Come on save it for tonight
You're all I need tonight

What you saying
Is the music up to high
Why don't you come come a little closer
Put my finger on your surprise
Your someone's ordinary dream
Just a dish of pure delight
Now if I can't hold my ground
Have someone bring my car around

You're all I need tonight
Come on save it for tonight
You're all I need tonight

You're all I need tonight
Come on save it for tonight
You're all I need tonight
