

## All Good Things

The Robot Ate Me

All good things take time  
but honor breeds what it brings  
the triumphs of mankind  
face our will to believe

when justice is right  
it still won't set us free

life is a (horror spray)?  
a note that warriors sing  
a song that mocks the war's broken call

love is a horror sprays  
a note that warriors sing  
a song that mocks the war's broken call

love is a horror sprays  
and note that pleads to the kings  
a sound that mocks the wars they bring

time takes all things  
but it leaves what they bring  
loves a bind our hearts  
mark our godless retreat  
the chariots sing their songs  
without heed to their reigns

life is a horror sprays  
a note that warriors sing  
a song that mocks the war's broken call

love is a horror sprays  
and note that pleads to the kings  
a sound that mocks the wars they bring
