

Only You Know How

The Roches

Did you ever ask yourself, how did we get here?
Floating on a sea of sorrow, nothing else is clear
Nothing else is clear

And you might be a puppy dog, you might be a cow
Only love can save you and only you know how

Did you ever take a walk to the edge of town?
Back before the airplanes came and took the buildings down
Took the buildings down

When this life is over, then it will be now
Only love can save you and only you know how

Will you accept an apology from the bottom of my heart
And will you send me a letter from the bottom
Of your deep blue sea

Did you ever think that I would sing a song like this?
Asking all these questions when all I want's a kiss
All I want's a kiss

And when the day is over and you put down your plow
Only love can save you and only you know how
Only love can save you and only you know how
