

## Postcard

### The Roches

If you happen to live on Mars  
Then I'm from Outer Space  
Where we drive around in cars  
And talk right out of our face

We walk around on feet  
And we fly around in planes  
There's this stuff called food we eat  
And think with these things called brains

Greetings from the Planet Earth  
To the many worlds in the Universe  
Wish you were here  
Hope you can come  
We'll have some intergalactic fun

If you happen to live on Mercury  
Then I'm an alien  
And I'm in a real big hurry  
To see a spaceship come sailing in

I look out the window and wonder  
Who's wondering back from the stars  
And I love to hear the thunder  
So everyone hum a few bars

Greetings from the Planet Earth  
To the many worlds in the Universe  
Wish you were here

Hope you can come

We'll have some intergalactic fun
