The Rocket Summer

I don't know what to do  
I don't know what to say  
I go around the world  
I never stop going  
I don't know what to do  
I don't know what to say  
I go around the world  
The more I know I know nothing

Digital snow  
Lost reception  
Giving sweet shivers  
Fun to pretend in  
The dead of night  
TV station  
Fingers outline  
Snow angel wings

I don't know what to do  
I don't know what to say  
I go around the world  
The more I know I know nothing  
I don't know what to do  
I don't know what to say  
I go around the world

Stay alive with me  
Blankets over my eyes  
I too can't see  
Stay the course with me

There are not reasons for everything yet  
There are no reasons to leave

(I don't know what to do)  
(I don't know what to say)  
There are no reasons to leave  
(I go around the world, I never stop going)  
(I don't know what to do)  
(I don't know what to say)  
There are no reasons to leave  
(I go around the world, the more I know I know nothing)

Speakers on  
Cruise the streets  
By your side  
Fantasy  
Windows down  
Let the air  
Fill your lungs  
Mess your hair

Stay alive with me  
Blankets over my eyes  
I too can't see  
Stay the course with me

There are not reasons for everything yet  
There are no reasons to leave

(I don't know what to do)  
(I don't know what to say)  
There are no reasons to leave  
(I go around the world, I never stop going)  
(I don't know what to do)  
(I don't know what to say)  
There are no reasons to leave  
(I go around the world, the more I know I know nothing)

Even when the bright is way too low  
There are no reasons to leave  
Even when the mind is screaming go  
Don't go

Stay alive with me  
Blankets over my eyes  
I too can't see  
Stay the course with me

There are not reasons for everything yet  
There are no reasons to leave

(I don't know what to do)  
(I don't know what to say)  
There are no reasons to leave  
(I go around the world, I never stop going)  
(I don't know what to do)  
(I don't know what to say)  
There are no reasons to leave
