

Never Knew (Solo Loop Jam)

The Rocket Summer

I just ran into a few someones today
Some ones that I never really knew
And I used to think how I had them
All so figured out

But no, none of it's true 'cause I never knew you
And now the truth of it is, is I want to be like you
So hello, good friend, I want to be next to you
For my head, for my heart, for what's true

So take me and save me and change me and then make me
And embrace me and then brave my heart for you
No, no, 'cause I can't go on without you
And it's time for something new oh no

And no, none of it's true 'cause I never knew you
And now the truth of it is, is I want to be like you
So hello, good friend, I want to be next to you
For my head, for my heart, for what's true

And as they strolled along
My heart broke out in song
From all the things and the thoughts
And assumptions that I had wrong
So now I'll be on my way to make this claim
I'll make it famous in every way
I'll make it stay when I will say

That no, none of it's true 'cause I never knew you
And now the truth of it is, is I want to be like you
So hello, good friend, I want to be next to you
For my head, for my heart, for what's true
For my head, for my heart, for what's true
For my head, for my heart, for what's true

Everywhere I go, I see breaking hearts
And everywhere I go, my heart breaks
Every single morning when I pour my first coffee
I wonder if I have what it takes
Cause everywhere I go, I see breaking hearts
And everywhere I go, my heart breaks
Every single day, yeah, I stay alive
But I wonder if I have what it takes

To survive, to love
In a world so messed up
To survive, amidst the hate
It's the atmosphere you're in, I'm in, every single day

How could you leave me standing
Alone in the world that's so cold
Or maybe I'm just too demanding
Maybe I'm just like my father too
Or maybe I'm just like my mother
She's never satisfied
So why do we scream at each other
This is what it sounds like

When I just cry alone

Alone in the world...

Through the hate, through the pain
Through our division every single day
I just want to say
Hello, good friend, I want to be next to you
Through the hate, through the pain
Through our division every single day
I just want to say
Hello, good friend, I want to be next to you
So hello, good friend, so hello, good friend
So hello, good friend, I want to be next to you
For my head, for my heart, for what's true
For my head, for my heart, for what's true
For my head, for my heart, for what's true
For my head, for my heart, for what's true
For my head, for what's true
For my head, for my heart, for what's true
