

Say

The Rocket Summer

Holiday was kiss catch up
Now on someones shoulder
I never thought back then I'd lose touch
It's so hard to remember
We tell our stories of joy and tragedies
And I leave and it steals
And all I can think is say
That you need me
Cuz I need it
Say you still need me
Cuz I need to hear it
Theres all these all these people wanna feel alone
Don't wanna be growing old and not get it
So say that you need

Lets make friends to fly...
Stop taking things for granted
I always say
But never fully will take my own advice
The ones we've lost are gone and we have all....
Do I know what I've got
Could it be clearer now
Say that you need me
Cuz I need it
Say you still need me
Cuz I need to hear it
There's all these all these people who wanna feel alone
Don't wanna be growing old and not get it
So say that you need me

Shut the door walk away
You will never see you me again
But you know
Shut the door walk away
You will never see me again
But you know
Shut the door walk away you will never see me again
But you know
You know

Say that you need me
Cuz I need it
Say you still need me
Cuz I need to hear it
There's all these all these people who wanna feel alone
Don't wanna be grow old and not get it
Just say that you need
So say you need
So say that you need
Me
