

# Shatter Us

## The Rocket Summer

Blacktop alone  
Thunderous silence  
Pick up the phone  
Make my life

Whatcha know about me?  
Whatcha know about madness?  
Whatcha know about me?  
I wonder ever do you feel like you're  
Shattering everything, but you don't know how it's happening?  
I just feel I'm shattering everything  
But I got you  
I got you  
And I won't  
I won't  
Shatter us too

Blacktop alone  
Thunderous silence  
Pick up the phone  
Make my life

Whatcha know about me?  
Whatcha know about madness?  
Whatcha know about me?  
I wonder ever do you feel like you're  
Shattering everything, but you don't know how it's happening?  
I just feel I'm shattering everything  
But I got you  
I got you  
And I won't  
I won't  
Shatter us too

Despite my head all wrong  
You are all I want  
Cherry colored love  
On and on and on, yeah

Do ya ever feel like you're  
Shattering everything, but you don't know how it's happening?  
I just feel I'm shattering everything  
But I got you  
I got you  
And I won't  
I won't  
Shatter us too...
