

Stuck Inside Your Light

The Rocket Summer

You're like a spaceship
I'm like a head trip
Roaming in fields golden

You spin around me
Hover above me
Got me levitating

I'm stuck inside your light
Air beneath my, air beneath my feet
Frozen in time
Am I dying?
Because here everything is beautiful to me
Beautiful to me

Here everything's beautiful me

Multiple colors, sunbeams and other
Shades of delirium
I think I love you
Though I never meant to
You've already took me in

I'm stuck inside your light
Air beneath my, air beneath my feet
Frozen in time
Am I dying?
Because here everything is beautiful to me

I'm stuck inside your light
Air beneath my, air beneath my feet
Frozen in time
Am I in heaven?
Because here everything is beautiful to me
Beautiful to me

I think I love you
Though I never meant to
Here everything's beautiful to me

I think I love you
Though I never meant to
Here everything's beautiful to me

I'm stuck inside your light
Air beneath my, air beneath my feet
Frozen in time
Am I dying?
Because here everything is beautiful to me

I'm stuck inside your light
Air beneath my, air beneath my feet
Frozen in time
Am I in heaven?
Because here everything is beautiful to me
Beautiful to me

I think I love you
Though I never meant to
Here everything's beautiful to me

I think I love you
Though I never meant to
Here everything's beautiful to me

Beautiful
