

## Future Lives

The Rocketboys

I was just a kid with a heartbeat on my sleeve  
I was naked when I got here and I'll be naked when I leave  
I've got pages and pages for all of the stages I've seen  
There's always one thing that's written underneath

I could always turn around in the hard times  
But know I'm always dreaming, dreaming of my future life

Maybe one day I could write a song with you  
For you to sing it all when all my days are through  
You could write the words with my life in a sentence or two  
And sing it over and over and over and over

We could always turn around in the hard times  
But know we're always dreaming, dreaming of the future lives  
We could always turn around in the hard times  
But know we're always dreaming, dreaming of the future life

We could always turn around in the hard times

Sing it over and over and over and over and over

We could always turn around in the hard times  
But know we're always dreaming, dreaming of the future lives  
We could always turn around in the hard times  
But know we're always dreaming, dreaming of the future life
