

Slow Down

The Rocketboys

When I started off alone to climb this mountain
I never had a plan to come down
All I had was the pack upon my shoulders
And the courage to never look back at the ground

Slow down if you have to
Slow down, but keep on

Often I wondered what the world below was doing
And what my life would be down there
And as the air around me started getting thinner
I just hung my head, took a deep breath and said

Slow down if you have to
Slow down, but keep on
Slow down if you have to
Slow down, but keep on

Do you want to give up
Because I know I want to give up
Do you want to give up
Because I know I want to give up
Do you want to give up
Because I know I want to give up
Do you want to give up
Because I know I want to give up

Slow down if you have to
Slow down, but keep on
Slow down if you have to
Slow down, but keep on
