

# Jump On Top Of Me

The Rolling Stones

I've been working so hard and feelin' no pain  
Sure got pains in my head, my legs feel limp  
Don't want to hear no noise, don't want to hear you cuss  
I need peace of mind, don't you make no fuss

Jump on top of me baby  
Jump on top of me baby  
Jump on top of me girl  
Give it to me nice and slow

Well there's too much talkin', 'bout this an' that  
And the window needs fixin', better feed the cat  
We're fresh out of beer, could you answer the phone  
Well you call this bisque, well I'm leavin' home

Jump on top of me baby  
Jump on top of me baby  
Jump on top of me girl  
Give it to me nice and slow, alright

Well jump on top of me baby  
jump on top of me baby  
Get on top of me girl  
Everybody lay down low

When we first met, we were both so young  
We didn't give a damn, how the clock would run  
The time is right, to make some fool of you  
'Cause it's gettin' late, what would you like to do

Jump on top of me baby  
Get on top of me baby  
Jump on top of me girl  
Give it to me nice and slow, alright

Well, jump on top of me baby  
Jump on top of me baby  
Jump on top of me girl  
And give it to me nice and slow

Alright, jump on top of me baby  
Jump on top of me baby  
Jump on top of me girl  
Everybody lay down low

Alright, jump on top of me baby  
Yeah top of me baby  
On top of me girl  
Everybody lay down low

I can't stand it when the sun comes up  
Gonna need some comfort, 'cause I can't stand up  
Shut the blinds, I'm gonna shut the shades  
And tell the neighbors, we'll be gone for days

Jump on top of me baby  
Jump on top of me baby

Jump on top of me girl  
Give it to me nice and slow, alright.
