

Never Thought It Would Be Like This

The Romantics

Not a second look
'Cause it was love at first sight
Music to my ears
Singing as we harmonized

Didn't take long
I couldn't cool down
What a feeling, a true love song

Never thought that it would be like this
(Not like this) Not like this
One look, one kiss
Never thought that it would be like this

Heartache and pain
Now only when you're not around
Haven't felt this way
Because I've always been too proud

Didn't take long
I couldn't cool down
What a feeling, a true love song

Never thought that it would be like this
(Not like this) Not like this
One look, one kiss
Never thought that it would be like this

On the up and up
Alone, I'm one unhappy soul
Solid by my side
Too good to ever let you go

Didn't take long
I couldn't cool down
What a feeling, a true love song

Never thought that it would be like this
(Not like this) Not like this
One look, one kiss
Never thought that it would be like this

Never thought that it would be like this
(Not like this) Not like this
One look, one kiss
Never thought that it would be like this

Oh
Never thought that it would be like this
(Not like this) Not like this
One look, one kiss
Never thought that it would be like this

Never thought that it would be like this
(Not like this) Not like this
One look, one kiss
I never thought that it would be like this
