

Rhythm Romance

The Romantics

Work it up, you know how

Get excited with you near me

Don't be shy and back down

I think you know our time is now

The way that you move me

And when you lay me down

I'm thinkin' that you could be

The one I always want around

Rhythm romance

Get it up, go down

Rhythm romance

Get it up, go down

Stay on top, don't ya stop

Get in the groove, are you with me?

With your lips, fingertips

They're makin' sure I'm ready too

The way that you move me

And when you lay me down

I'm thinkin' that you could be

The one I always want around

Rhythm romance

Get it up, go down

Rhythm romance

Get it up, go down

To the sound

Rhythm romance

Get it up, go down

Rhythm romance

Get it up, go down

To the sound

With our bodies rubbed together

And the sweet smell of love

Looking right into your eyes

Come on baby, yes

Heat it up in the mood

Let's lose control, don't fight it

One on one, safe and sound

Let's love it to the limit now

The way that you move me

And when you lay me down

I'm thinkin' that you could be

The one I always want around

Rhythm romance

Get it up, go down

Rhythm romance

Get it up, go down

To the sound

Rhythm romance

Get it up, go down

Rhythm romance

Get it up, go down

To the sound

Rhythm romance
