

# Test Of Time

The Romantics

You're the one, now, I know it  
In time, I'm gonna show you  
Day by day, I pick myself up  
All alone and waiting for you

Take the key, set your heart free  
I've got the luck and soul, too

Test of time, it's just a test of time  
I can stand the test of time  
Test of time, I'll make believe that you're mine  
And it's just a test of time

When you're around, can't deny it  
I'll always want you by me  
It might be long, forget the time  
Come to me girl, when you've waited

Test of time, it's just a test of time  
I can stand the test of time  
Test of time, I'll make believe that you're mine  
And it is just a test of time

Side by side, is how we could be  
And I'm here, anticipatin'  
What can I do, you're just my kind  
With me, no chance you takin'

I do the time till we do love  
Shakin' hard and I'll be waitin'

Test of time, it's just a test of time  
I can stand the test of time  
Test of time, I'll make believe that you're mine  
And it's just a test, a test of time

Test of time, it's just a test of time  
I can stand the test of time  
Test of time, I'll make believe that you're mine  
And it's just a test, just a test, just a test of time

I don't mind, ooh  
Yes, it's true this heart'll keep on waitin'  
Now I know it, say it over and over  
Just a test of time
